

Community **Foundations** for Lancashire & Merseyside

The Community Foundations for Lancashire and Merseyside

The Community Foundations for Lancashire and Merseyside (CFLM) helps individuals and organisations give to causes that matter to them where there is most need and where it has greatest impact. We work with a range of stakeholders including individuals, families, and businesses to ensure charitable giving is effective, informed, and transparent.

With strong local knowledge and trusted relationships, CFLM provides insight and expertise in charitable giving. We're part of a national network of 47 UK Community Foundations, and global movement of place-based giving that began over a century ago.

Community Foundations offer a reliable, accountable way to support good causes, backed by clear reporting and measurable outcomes. Our shared goal is to build stronger, fairer communities where everyone has the opportunity to thrive.

Strong governance

Multidisciplinary team of experts in charitable sector

Respected locally and nationally

Connectivity and insight to the community

Robust grant making service

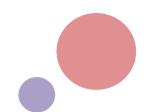

Custodians of legacy

Evidencing impact

What do CFLM partners say?

My foundation's named 23 Foundation, after my shirt number. The idea of the foundation started in 2009 when I played my testimonial game for Liverpool and decided to donate the proceeds to charity. The original idea was to help young people across Merseyside, since then it's grown arms and legs and helps a range of people.

I decided to work with the Community Foundation because I was still playing at the time and setting up a charity was a lot more complicated than I first thought. It is vital you get the right help and support, for me, there is no one better in Merseyside than the Community Foundation.

The advantages of working with the Community Foundation are it saves time and it is not my area of expertise. Mine is supposedly football, some people would question that, so the expertise of the team running CFLM has been a massive help.

I would recommend the Community Foundation to any other donor out there who's thinking of setting up their endowment fund, and the big reason why is the legacy.

My favourite thing about working with the Community Foundation is the due diligence checks, the process is thorough. When we give funding to projects, it's not just about handing the money over and that's the end of it, they have to report back and provide evidence.

Jamie Carragher LFC Legend & 23 Foundation Founder The Southport Strong Together Appeal, led by the Community Foundation for Lancashire and Merseyside (CFLM) in partnership with local authorities and charities, provided vital and rapid support to the families and wider community affected by the Southport tragedy. The National Emergencies Trust was proud to assist by raising awareness, advising on fund distribution, and connecting key stakeholders.

Responding to emergencies of any scale requires a collective effort, bringing together diverse skills, resources, and expertise that no single organisation can provide alone. The collaboration between CFLM, regulatory bodies, the Trust, and giving platforms was nothing short of remarkable. Everyone worked collaboratively to prioritise the needs of those affected, ensuring help was delivered swiftly and compassionately.

Working with Rae and her team was an absolute pleasure. Their professionalism, clear communication, and mutual trust ensured a seamless response. Their drive and passion to go above and beyond to support their local community in its time of need was truly inspiring. It was a privilege to be part of such a unified effort, helping to deliver essential support to those impacted when it was needed most.

Mhairi SharpCEO, National Emergencies Trust

What do CFLM partners say?

The benefits of working with the Community Foundation are their sheer knowledge and expertise, far superior to anything that we would have within our own organisation. Building fundamental relationships over a very extensive network across the Liverpool City Region, helping us ensure that we reach the people that need our help the most.

Liverpool ONE Foundation exists primarily to support young people with their mental well-being and health. We've seen a huge increase in the number of community groups and charities that require our help, but Community Foundations's ability to help us navigate the number of applications and requests has been critical to the success of the foundation.

The knowledge, the expertise and the professionalism of the team at the Community Foundation has been fantastic. We could not have achieved what we have since the fund began in 2009, if it hadn't been for the people behind the service.

The team are very passionate about the cause, and they've helped us to support a huge number of organisations across Halton, St. Helens, Sefton, Liverpool, Wirral and Knowsley. We just couldn't have delivered that in house without their support.

Donna HowittPlace Strategy Director Liverpool ONE

Some months after my wife's death, I suggested to my financial planner at FPC I would like to set up some form of Charitable Foundation with the aim of helping small startup charities in the Burnley area, from where Chris, my wife, and I originated from, met and got married.

I wanted this to commence on the first anniversary of my wife's death. FPC set up a meeting with Rae and Karen at CFLM, as she suggested it would be a better and more efficient way of operating the Foundation, rather than undertaking all the future administration myself.

We eventually met, and I was instantly impressed with their presentation, giving me many details of how the Foundation would operate, including visits to analyse projects, their suitability for being issued a grant, presenting potential bidders each year to our panel and advising with their extensive knowledge.

Our panel consists of my daughter, son, Moira [from FPC], two representatives from CFLM and myself. It has been wonderful to involve my children right from the beginning.

Each year, we are presented with the current valuation of the fund after making the various donations, and we have been delighted that the capital in the fund has hardly reduced.

At the end of 5 years, CFLM presented a full colour brochure of the performance of the Foundation, including how much we had donated, how many organisations had benefited and an estimate of how many individuals and their families had been impacted.

The whole ongoing process has been incredibly gratifying from a personal viewpoint, knowing how many disabled and under privileged people we have helped, and will continue to help for many years to come. Also to know my children are involved will continue to be so, and hopefully one or more of my grandchildren will eventually become involved.

How to partner with us?

Our experienced team have the expertise to help you make informed decisions around charitable giving, whilst ensuring your investment makes a difference to those who need it most.

We connect our clients to grass roots community groups who are seeking funding, offering bespoke advice, combined with a full support service, which ensures sound management and due diligence, making giving easy, tax-efficient and robust.

All you need to do is get in touch and talk to one of our team, we can walk you through the rest.

Personal Giving

We work with many families and individuals who are passionate about charitable giving and want to make a difference. We have the expertise to ensure your charitable giving requirements are met, helping those causes closest to your heart.

Corporate Giving

We provide bespoke support, helping you to develop and deliver the social element of your ESG strategy. Wherever you are on your planning cycle, we are there to provide expertise and guidance at every stage, ensuring you can evidence the impact you make.

Professional Advisers

We work in partnership with you to ensure your clients have the expertise they need to make informed charitable investment decisions as part of their financial planning. Every client is different, so we look to provide a package bespoke to their needs.

Public Sector Funds

Our experience of managing funds on behalf of the public sector is unsurpassed. We offer bespoke advice and expertise, combined with a professional support service.

National Charities

We have experience of supporting large charities to manage their funds, where reaching grass roots community groups is crucial, timing is of the essence, and due diligence and impact a prerequisite.
